Nebraska Infection Control Network

What is the NICN?

The NICN is a joint effort involving the Nebraska Hospital Association (NHA), Nebraska Health Care Association (NHCA), Nebraska Department of Health and Human Services (NHHS), the Nebraska chapters of the Association for Professionals in Infection Prevention and Epidemiology (APIC) and other infection prevention professionals.

The NICN also publishes a newsletter at no charge, and sponsors a two-day course for health care professionals.

In November of 1988, the NICN received a National Community Health Promotion Award from Dr. Otis Bowen, the Secretary of Health and Human Services, in recognition of outstanding community health promotion activities.

For questions concerning NICN, or for infection control issues, contact the NICN at 7423 S 173 St, Omaha, NE 68136, or call 402-559-6235.

Infection Prevention
for
Health Care Facility Personnel

Purpose

The purpose of this course is to provide current knowledge and skills necessary for infection prevention health care providers to function effectively in various health care settings.

Target Audience

Nurses and other health care personnel dealing with infection prevention issues.

Objectives

Upon successful completion participants will be able to:

- ❖ Understand the components of an infection prevention program.
- ❖ Identify common health care associated infections, resistant organisms and problem infections.
- ❖ Interpret current regulations and standards.
- ❖ Describe methods of infection prevention in a variety of health care settings.
- ❖ Discuss methods of surveillance, figure infection rates and analyze data.

Format

The course will include lectures, discussion and educational activities. Course fees includes lunch, breaks and materials.

Nebraska Sandhill Cranes

Schedule Each Day

Registration	7:30 - 7:50 am
